ABOUT ME

I am a highly motivated and results-oriented Information Technology graduate seeking an entry-level position to leverage my strong programming skills and expertise in information systems and cybersecurity. With demonstrated proficiency in HTML, CSS, PHP, and JavaScript, I have gained valuable experience through building both front-end and back-end systems at Richfield College. I am eager to enhance my skills within a dynamic IT role, contributing to the success of a cutting-edge organization. Additionally, I bring four years of experience as a part-time barista, where I developed a solid understanding of coffee preparation and exceptional customer service.
